ICOLD: in Vietnam, for Sustainable Development

For the first time in the history of ICOLD, the 19th Annual Meeting of the International Commission on Large Dams (ICOLD), was held in Ho Chi Minh City, Vietnam, one of the most rapid economic growth of ICOLD member countries at the National Convention Center, in Hanoi, from May 27th to May 30th.

Over 500 delegates, including 100 representatives of governmental organizations, including 40% of the 50 first-time attendees, attended the 19th Annual Meeting. A wide range of speakers, including the President of the Republic of Vietnam, the Prime Minister of Vietnam and other high-ranking officials, were in attendance.

Whether one builds dams with concrete, masonry or steel, the dam is a critical part of the infrastructure of a country. The dam is a critical part of the infrastructure of a country. The dam is a critical part of the infrastructure of a country.

The 19th Annual Meeting was a big success with more than 500 people being registered to attend sessions in ICOLD's main hall and in the side rooms.

ICOLD is proud to have hosted the 19th Annual Meeting in Vietnam.
