ICOLD ON THE FRONT LINE FOR DEVELOPMENT

Achieving the 2015 millennium goals is the greatest challenge the world has ever faced. The Millennium Development Goals (MDGs) set by the United Nations in 2000 are a call to action for all nations to work together to improve lives and create a better world. The MDGs are being achieved through the efforts of all nations, but there is still much work to be done. ICOLD is a non-profit organization that works to improve the lives of people in the developing world. We do this by providing technical assistance and training to dam owners and operators. We also work to improve the safety of dams and to reduce the risk of dam failure. We are proud to be part of the ICOLD family and to work with dam owners and operators around the world.
