AFRICA'S WATER DEVELOPMENT NEEDS

**Vice President
Paul Biya**

It was a privilege to attend a recent workshop in Johannesburg, South Africa on Sustainable Water Resources which had been organized by the New Partnership for Africa's Development (NEPAD) and the African Development Bank (ADB). It was able to attend in view of the important general international involvement in the water in the South African Department of Water Affairs and Forestry and of my background in international cooperation in the field of water resources and development. The workshop was organized by the African Development Bank (ADB) and the African Development Bank (ADB) in partnership with the African Development Bank (ADB) and the African Development Bank (ADB).
